January	1–28	July	189–216
February	29–68	August	217–248
March	69–100	September	249–280
April	101–128	October	281–312
May	129–160	November	313–334
June	161–188	December	335–366

Ailsa Craig Experiment, 126
Aircraft-mounted pyranometer; A. P. Cluley and J. P. Cowley, 217, *photograph facing* 232
Anomalous condition of the sea surface observed from an aircraft; H. Griffiths, 211, *photograph facing* 211
Appointment of new Secretary, Meteorological Office, 123
Atkins, N. J.; Interesting cloud formation seen on satellite imagery, 85, *photographs between* 84 and 85

Battye, D. G. H.; A note on singularities, 358
Booth, B. J.; Unusual wave flow over the Midlands, 313, *photograph facing* 315

Climatic change or analysts' artifice?—a study of grid-point upper-air data; D. E. Parker, 129
Cluley, A. P. and Cowley, J. P.; An aircraft-mounted pyranometer, 217, *photograph facing* 232
Collier, C. G.; Data processing in the Meteorological Office Short-period Weather Forecasting Pilot Project, 161
Collier, C. G.; A note concerning progress and plans for the establishment of operational networks of quantitative weather radars, 75
Computation of vapour pressure, dew-point and relative humidity from dry- and wet-bulb temperatures; G. P. Sargent, 238
Cotton, H.; Memoirs of an Army Meteorologist, (Part 4) 22, (Part 5) 58, (Part 6) 90, *illustrations facing* 15, 85
Courtney, F. M.; The use of analysis of variance in the assessment of rainfall variability, 268
Cowley, J. P., see Cluley and Cowley

Daily Weather Report—cessation of publication, 365
Data processing in the Meteorological Office Short-period Weather Forecasting Pilot Project; C. G. Collier, 161
Day, A. P.; Examples of snow prediction using the 10-level model, 47
Dines, J. S., *obituary*, 312
Dixon, B. R.; Hailstorm at Sevenoaks, 26 June 1980, *letter*, 362, *photographs between* 362 and 363
Dutton, M. J. O.; Probability forecasts of clear-air turbulence based on numerical model output, 293

'Earth' and 'soil' temperatures, 67
Enhancement of the Meteorological Office computer system, 67
Estcourt, W. G., award of I.S.M., 279
Examples of rainfall distribution in potentially unstable conditions over southern England; B. A. Hall, 1, *correction*, 128
Examples of snow prediction using the 10-level model; A. P. Day, 47

50 years ago, 311
Formation of ice on electrical conductors during heavy falls of wet snow; A. K. Kemp, 69, *correction*, 160
Future plans for North Atlantic Ocean Stations, 363

Grant, K.; Mesoscale surface humidity observations near the Home Counties tornado, 24 June 1979, 259, *photographs between* 264 and 265
Grant, K.; Plotted synoptic charts and time-series graphs for research purposes, 354
Griffiths, H.; An anomalous condition of the sea surface observed from an aircraft, 211, *photograph facing* 211
Groves, Mrs Dorothy, *obituary*, 331

Hall, B. A.; Examples of rainfall distributions in potentially unstable conditions over southern England, *correction*, 128
Hallissey, Mary, see McIntosh and Hallissey
Harris, E. W. C. and McSean, T.; MOLARS—Automating the National Meteorological Library, 18
Hawson, C. L., award of I.S.O., 279
Hide, R., see Reviews, 213
Homogeneous rainfall record for the Cirencester area, 1844–1977; P. D. Jones, 249, *correction*, 366
Houghton, D. M., see Reviews, 120

Improved gravimetric rain-gauge; J. R. Sherwood and R. E. W. Pettifer, 203, *photograph facing* 204
Interesting cloud formation seen on satellite imagery; N. J. Atkins, 85, *photographs between* 84 and 85
International Conference on Climate and Offshore Energy Resources, 21–23 October 1980—Preliminary Announcement, 186
International Meteorological Organization Prize, 67
Investigation into the variations of grass-minimum depressions; M. N. Pickup, 230
Investigations of dust cloud from Mount St Helens volcano, 332
Invitation to form a meteorological system of observations by world-wide agreement; James Jurin, M.D. (translated from the Latin by Dr J. G. Landels), 272
